SYMPATHY OF OTHER NATIONS.

(By Associated Press.) ARIS, June 25 .- The deepest sorrow

Behind this is the anger of France at the assassin, Cesare Giovanni Santo, the young Italian, whose deadly knife has plurged a nation into grief.

Telegrams of sympathy are pouring in upon the late President's family and upon the Government. These messages of condolence come from all countries of the world, showing that France is not alone in her sorrow at the death of her President.

The newspapers, of all shades of opinion, print leading articles deploring the assassination of Sadi-Carnot. Bigns of mourning are this morning

general throughout this city and throughout France. All the flags are at half-mast, and the public buildings are being draped with crape.

The inhabitants of Lyons generally this morning are removing the festive decorations from their buildings and are replacing them with mourning emblems as

fast as possible. Carnot's Body Lies in State.

The apartment at the Prefecture in which the body of the late President lies in state presents a most impressive ap-

pearance. The remains of the murdered man are clad in a dress suit, and across his breast is the Grand Cordon of the Legion of

Honor, of which, as Chief of the State. Around the bier are stationed a number of high officers of the President's Military Household, who, with several Sisters of Charity, watched the remains

The feeling of public anger w. Ih pre

assination is almost beyond description. On the boulevards, this morning, scenes f the greatest excitement have been ed. The police had the greatest imculty in dispersing the crowds of wildly angry people who assembled at different points, discussing the tragedy, cursing the assassin, and calling for ven

geance against the murderer and his

Italian Flog Palled Down.

The fact that the assassin is an Italan has given rise to the most dangerously bitter feeling against Italy and Italians, and several Italian flags, displayed out of sympathy with Prance's loss, and draped with crape, were coted at and, in at least one instance, pulled down and torn into shreds.

In every quarter of Paris flerce demonstrations against the Italian residents have taken place, and, as a result, nearly all the Italian cafes and restaurants have been closed. But if the feeling against Italians is

strong, the sentiments of hatred with which the majority of the people regard Anarchists is still stronger, and s growing hourly in intensity.

Santo Still Reticent. Santo, the murderer, has boldly as

serted that he is an Anarchist, and, therefore, upon the Anarchists are the cople pouring the vials of their wrath Further than asserting that he is an Anarchist, the prisoner has not, ap parently, made any statement, but it is said that the police are convinced that the assassination of President Carnot is the result of a carefully planned conpiracy, in which a number of people re concerned.

The authorities are engaged in a mos exhaustive investigation into the prisoner's past career and recent move-ments, and no official statement on the subject is likely to be made until this inulry is completed.

Call to Elect a New President.

An official note was issued this mornng, calling upon the Senate and the Chamber of Deputies to assemble in Congress at Versailles at 1 o'clock Wednesday afternoon, for the purpose

of electing a new President.

It would be difficult to express at this ime an opinion of any value as to the result of the assassination on the future f France. That political cabals will be formed to secure the election of M. Carnot's successor goes without saying but the time in which such combina-

tions can be formed will be limited.

The most prominent name in connect ion with the Presidency is that of M Castair-Perier, at one time Prime Minister and now President of the Chamber of Deputies. That he is well qualified to fill the position is conceded, but it is scarcely believed that he can be elected without a bitter struggle. The political situation, complicated before now beomes more so, and he would indeed be wise prophet who could foretell the

next President of the Republic. The names of MM. Challemel Lacour President of the Senate; Cavaignac, Dupuy, Brisson, Constans and Gen. Saussier are also mentioned as likely to be strong candidates.

It was thought that the entire population of the city was on the streets when the attack upon the President was made, but this belief later proved erroneous, for as the night advanced the crowds were constantly augmenting

their strength. After the attacks upon the Italian cafes the disorderly element among the crowds devoted their attention to the Italians whom they found upon the streets. Several of these men were pursued by the mob, and barely escaped with their lives. The police, who were extraordinarily vigilant, had great difficulty in rescuing the hunted men. The Rue de la Barre is now barri-

caded at both ends and guarded by troops.

The weapon used by the murderer was a long, triangular blade of the generally accepted stiletto pattern. Upon the blade are engraved the words: "Record of Toledo.

sault on President Carnot, which he learned on his arrival home from church last night.

Gen. Harrison appeared stunned for an instant, but quickly recovered his equanimity and expressed his deep sorrow, which he said went out to Republican France at this time. "It is, said he, "the spirit of Anarchy which has caused an assassin to raise his hand against the French President."

Gen Harrison continued: "I believe the immediate move must be revenge for the recent execution of Anarchists at Paris. I presume there could have been no pretense of a grievance against President Carnot personally.

"But the act, dreadful as it is, cannot, I believe, affect the stability of the French Republic. It has seemed to me to be firmly grounded on the principles of self-government, law and order. The monarchical feeling, I have thought, was dying out, and I cannot believe there will be any movement to cause a revolution in favor of monarchy. The effect of this assassination can only intensify the forces of law and order against these Anarchists."

FOR A PUBLIC MEETING.

French Residents Deeply Grieved Over the Tragedy.

The assassination of President Carhorror and indignation among the members of the French colony in New York. The general belief is that Santo murdered the President out of a feeling of revenge because Carnot refused a pardon to Valllant, the bomb-thrower, who was recently guillotined in Paris. The French esidents also think that no internationl politics figure in the case.

Joseph Thoron, President of the So-lety Francaise de Bienfalsance, the eading French society of New York, leading French society of New York, stated this morning that he knew of no arrangements that have been made for a public expression by French residents of their sentiments on the assassination. He intended to see the French Consulto-day about the matter, Mr. Thoron said that a meeting had been called for to-morrow to consider preparations for the celebration on July 14 of the Fall of the Bastile, at which all the leading French residents would probably be present. In all probability the question of holding a public meeting would then be discussed.

The prefix of Sadi to President Car-

Christian people must join in denouncing it."

Among the Germans at Terrace Garden, the headquarters of those in attendance at the Saengerfest, the assassination of President Carnot and the probable effect it will have upon European affairs was earnestly discussed to-day. Here and there some expressed regret that the populace had not succeeded in sending Santo into eternity before Carnot breathed his last.

"That would have had a more lasting effect on the disordered minds of those who plan assassination than will the slow process of law," remarked a delegate, who was answered by another with the statement that France will not delay long in punishing the assassin.

"The fact that Santo is an Italian," said Carl Lents, of Newark, "will probably tend to embitter the relations between France and Italy, but, as a matter of fact, it should not, for, of course, Italians deplore the act as much as do other nationalities."

WHAT ANARCHISTS SAY.

"One balances the other," was his to added: "I wish it had been the Car instead of Carnot."

When an "Evening World" reporter called at Schwab's saloon this morning there were a half dozen wild-looking men there, drinking and cracking jokes about Carnot's death. When the reaporter entered they changed the subject, and pretended to have been speaking of I the "Saengerfest." Asked what they thought about Carnot's death, the bartender said: "We have no time here to read about such matters. Come when Mr. Schwab is in. He may know."

Herr Moat was not in when an "Evening World" reporter called this morning at his home on the top floor of the tenement-house at 113 Henry street.

His young and pretty wife, however, who was nursing her five-weeks-old baby boy, expressed great readiness to n discuss the assassination of President Carnot.

"When my husband left this morn-

it, but as I am in perfect accord with his views I think it safe to say that my husband will consider the assassination of President Carnot as ill-timed and tactiess. Not that we regard His removal from life as any great harm; but, if it was intended for revenge of Ravachol and Vaillant's death, it was altogether too long deferred to promote the interests of the cause at this late day. Besides, such a solitary blow, where so many had been concerned in the condemnation of Ravachol and Vaillant, seems to indicate quite conclusively that it must have been struck to satisfy some private grudge."

Herr Most is known at the house where he lives as John Miller. This is also the name under which he conducts the affairs of the Freihelt.

One of the most remarkable Anarchists in town is Mme. Marie Louise, of 146 West Tenth street.

When seen by the reporter this morning, she was feeding a kitten that had strayed into her apartments a short time ago.

Mme. Louise had not yet heard of Pres-

ing, she was feeding a kitten that had strayed into her apartments a short time ago.

Mme. Louise had not yet heard of President Carnot's assassination, and expressed unfeigned surprise and sorrow when told of it.

"That is really too bad," she said; "I am very, very sorry that such a thing should have happened. It does not promote the cause of Anarchy at all. On the contrary, such deeds of violence have the effect of retarding its progress. Anarchy means no rule at all. But assassination is rule of the vilest sort. It is infinitely worse than mob rule. This at least is open, but assassination moves in the dark and is cowardly.

"I believe in revolution to accomplish the aims of Anarchy. But it must be fair, open, above bosen!. A revolution, if first by peaceable means and then, if need be by force, but not the underhand force of the bomb-thrower, of the assassing.

"Lyons, you see," she added, "is the hotbed of revolutionary Anarchy. It is the headquarters of the silk-weaverset he most deeperate sufferers in the world.
